

BOMBARD RENEWABLE ENERGY SOLAR TRAILER

mobile rechargeable trailer with solar power generation

LAS VEGAS, NV

The Solar Trailer is powered by 12 Sharp 224 watt solar modules with one Radian 8000 watt inverter and a Trojan rechargeable battery. It is both grid interactive and stand alone. The Solar Trailer was first used to promote solar power at UNLV during Green Fest 2014 and has since been used at the City of Las Vegas Farmers' Market at City Hall, First Friday Las Vegas, Forgotten City (a Burning Man event), and the CSN Science and Technology Expo 2014.
